Glass Open Book

Glass Futures Ltd

Description:	Glass Futures Ltd is a not-for-profit research and technology organisation, supported by multi-national brands and global companies in conducting collaborative cutting-edge research in glass manufacturing, sustainability, and environmentally friendly projects, made possible by a significant private and public sector investment of over £50m+ over the coming years. Our Centre of Excellence in St Helen's (UK) will provide global support and expertise to organisations in their sustainability journey, demonstrate disruptive technologies and generate new ideas that will have an impact all the way through the glass supply chain to the consumer.
Location:	United Kingdom
Sectors:	Glass container, Flat / Float glass, Special glass, Glass processing
Activities:	Institutions, associations
