Glass Open Book

ADI s.r.l.

Description:

ADI, the Application of Industrial Diamond, is an Italian company founded in 1980 in Thiene (Vicenza), strictly and dutifully bound to the MADE IN ITALY which we are so proud of.

We are a worldwide leader in the production of diamond tools for stone, ceramics, mechanics, glass and optics.

Today we count on 160 employees.

ADI is a technological excellence: solid, flexible, customer oriented and able to offer customized and advanced solutions.

A strong commitment is necessary to face an ever more competitive market also in constant evolution, which is why aimed investments in R&D and infrastructures are prioritized at ADI.

We strongly believe that through these efforts and the support given by a prompt service, we can supply the “excellence” to keep our customers always at the forefront of innovation.

OUR MISSION
We provide technology up-to-date with the challenges of a rapidly evolving market in hi-tech materials.

We also offer our experience and know-how: not just a product, but a high quality and committed service. This in turn means “customized and dedicated solutions” for our clients.

We offer a complete SYSTEM and this is made possible thanks to the work of our skilled commercial and technical teams, who represent the very Human Assets of ADI.
