Glass Open Book

BENTELER Maschinenbau GmbH

makes it happen

Description:

We are a leading provider for flat glass processing solutions and services. We support our customers in more than 50 countries with innovative machines and services. We convince on eye level. In 2016, we generated sales of around 50 million euros with more than 260 employees.

Our motivation

Our dedication to glass. BENTELER glass processing solutions convince due to their outstanding quality, which will be to your advantage. As a glass processor, you will get a perfect product from us that will match your requirements. Our aim is to fulfill the wishes of our customers. In so far as those are changing over time, we are constantly developing ourselves and our machines. We also offer a comprehensive service program, such as maintenance, repairs, optimizations or trainings: At BENTELER, you get everything from one source around glass processing machines.

Our philosophy

Reliability and service go without saying. Openness and respect for one another are our guiding principles in maintaining our long-term business relations.
