Glass Open Book

Ceramic Colors Wolbring GmbH

Dispersion with Ceramic Colors Wolbring

Follow the company

Description:	Ceramic Colors Wolbring are experts for contract and paste dispersion. Numerous companies from many different branches of industry, such as the cosmetics, glass, automotive, electronics, food and pharmaceutical sectors, have been convinced by the company's speed, flexibility and the ideal price-performance ratio. You have the choice: You can decide whether you want to provide the requisite raw materials yourself. Should you decide to do so, we subsequently take on the task of contract dispersion. If you do not have access to any raw materials, we can naturally procure them for you. This is mainly the case with paste dispersion. What makes Ceramic Colors Wolbring stand out is the company's high level of expertise, and the capability to quickly and individually accommodate its customers' specific requirements. It offers it services to both national and international customers.
Location:	Germany
Sectors:	Glass processing
