HEGLA GmbH & Co. KG

High Performance Innovation for Glass Processing

Follow the company

Description:	Since its foundation in 1976, the HEGLA Group's successful development has been characterised by offering services to customers on a partnership basis and by being one of the world's leading providers. Our main customers come from the demanding flat glass industry in the fields of construction glass, automotive glass and speciality glass, the window industry and the glass wholesale, which includes refinement and crafts. Our goal is to assist our customers comprehensively, competently and locally. HEGLA develops, produces and sells: Machinery, plants and equipment for flat glass processing and refinement, storage and logistic systems for glass and windows, as well as superstructures for lorries and transporters. Expert advice and comprehensive maintenance services round off our portfolio.
