Glass Open Book

IPROTec GmbH

GLASS MACHINERY

Description: The foundation for the history and development of IPROTec GmbH lies in the development, design and construction of machines for glass manufacture. We have more than 30 years of experience working with Zwiesel Kristallglas (Schott Zwiesel) and in other co-operative arrangements in the field of automatic glass goblet manufacturing.

Having developed a great number of patents together with Zwiesel Kristallglas AG, we now provide complete manufacturing lines for (flute) glass production.
