The GLASSMATE family of materials and products are especially engineered to meet the needs of the glass container industry. Many of POCO's glass handling solutions feature patented designs for a combination of graphite inserts and metal holders and supports. These patented designs were developed to offer quick mounting, quick release for fast changes and unique features to improve performance throughout the glass line. GLASSMATE parts are designed to fit existing equipment. Many parts are repairable for increased life of the part.

All GLASSMATE hot glass-handling materials have the heat resistance, strength, durability and non-absorption characteristics to perform under the most rigorous conditions without damaging the glassware. POCO's hot glass handling materials offer excellent performance combined with reduced mechanical damage for increased pack rates.
