Waltec Maschinen GmbH

Machinery for the Glass Industry

Description:

WALTEC is the leading manufacturer of automatic, electronically controlled feeder, pressing and spinning machines, press and blow, blowing as well as twin-table machines, handling systems and fire polishing machines for the glass industry.

The goal of all WALTEC developments is to increase the efficiency and quality of the glass production of our customers and to further improve the working environment of the glassworks employees. This statement is confirmed by our successful, worldwide-used developments.

Our family company with tradition is what it means: as a worldwide operating company we are aware of our responsibility for our employees as well as for the society. Therefore a consequent apprenticeship and further education is part of our company philosophy. We are sure, that only motivated employees are focussed to the task and will produce the highest possible quality for our customers. Also the motivation of the youth is faciliated through a consolidated and practical training.
