Wieland Lufttechnik GmbH & Co. KG

Industrial Vacuum Systems

Description:	Wieland Lufttechnik is the technology leader concerning industrial vacuum cleaners, stationary vacuum units and dust extraction units. Customer benefit, build quality and ergonomic principles are guiding us when we develop suction solutions for cleaning or material transport applications. Amongst others we design and manufacture industrial vacuum units for suction materials which are toxic or explosive. Our units are equipped with high quality Atex components in order to safely control explosion risks. Wieland vacuum units – industrial vacuum systems for all sectors of industry.
