Falorni Tech - Glass Melting Technology

Building your future is our future.

Description: Falorni Tech is the industrial division of Falorni Gianfranco Srl, a historical Italian company serving the glass industry since 1958. After building furnaces all over the world, in 2015 was officially branded Falorni Tech. Falorni Tech provides turn-key projects as an EPC contractor or developing ad hoc solutions and supplies innovative solutions as:

- melting furnaces: regenerative, recuperative, oxy-fuel and all the main components (combustion systems, burners, heat recovery systems, etc.) to optimize the process thus enhancing the production performances of the entire plant;
- working end: a vital part for the process where, thanks to a proper design and the choice of suitable materials, high efficiency as well as large economies in fuel consumption and reach high flexibility. coloring forehearths: maximum flexibility means customization;
- customized services: glass plant engineering (with 2D and 3D layouts), technical consultancy and on site-training, furnace installation, start-up, rebuilding, renovating service, oxy conversion, refurbishment of existing batch plants.

Falorni Tech combines engineering, installations, and tailored customer service with a particular focus on:

- Efficiency for time, money-saving, reliability & safety.
- Active listening of the customer which fosters understanding and empathy
- Quality performance and positive attitude
