Global Combustion Systems

Follow the company

Description:	Established in 2006, Global Combustion Systems have people with more than 50 years experience in Industrial Combustion, servicing both Glass and Steel Industries Worldwide. Global Combustion Systems aim is to provide a complete one stop shop package for industrial combustion systems to an existing and ever expanding customer base. The products and services provided are designed specifically to meet the harsh industry conditions, and current environmental legislation. Global Combustion Systems also provide bespoke system design and engineering. With technical bases in Scotland, UK and China, Global Combustion Systems reach far and wide with a network of agents and representatives, all of whom have specific industry experience. Together we provide a professional service and support in capital equipment, spares, servicing and consulting.
