Glass Open Book

Hornos Industriales Pujol S.A.

Manufacturing since 1911. No limits in glass creation.

Description:

Founded in 1911 and managed by the fourth generation of the Pujol family, the 5,000 m2 Hornos Industriales Pujol plant is located in Sant Feliu de Llobregat, Catalonia, Spain. It centres its activity on the manufacture of ovens and machinery primarily for the glass, ceramics, metallurgical, and chemical sectors. In the last 20 years it has become an international specialist in the production EVA glass laminating ovens.

Hornos Industriales Pujol is the only manufacturer in the world that has developed an oven capable of laminating PVB without a climate chamber or an autoclave, whilst offering short curing cycles for architectural EVA. This translates into a 40% reduction in the cost of machinery and cost per unit produced.

Follow the company

Our Mission
To constantly develop heat treatment technologies whatever their application; to create technological leadership.

Our Vision
Constant innovation, improvement, and optimisation.

Our Values
Passion, responsibility, commitment and the capacity to adapt to a changing world and transformation are our main hallmarks.

Our Commitments

To our customers
Meeting their real needs is a priority. Our role is that of an accessible, proactive, and reliable partner; we are known for working closely with our customers, fully aligning ourselves with their strategy in order to offer them sustained support in the long term.

To our vendors
Our policy is to establish a direct, personal and stable relationship over time with all of our vendors. This relationship is based on the principle of ongoing collaboration between companies, transparency, veracity, and reliability of the information provided.

To our staff
We believe that it is of paramount importance to ensure that the people who work for Hornos Pujol are motivated.

To the environment
