Glass Open Book

LiSEC Austria GmbH

all.in.one:solutions

Description:

LiSEC is a globally operating group which has been offering innovative individual and complete solutions in the field of flat glass processing and finishing for more than 65 years. The performance portfolio includes machines, software solutions and services.

LiSEC stands for high-quality machines and systems as well as integrated complete solutions including software along the entire value chain of flat glass processing. The product portfolio contains both individual machines and complete production lines for glass cutting, glass edge and surface processing, the production of insulating and laminated glass, as well as the underlying intra- and extralogistics.

Customers benefit from working with a full-service provider that has extensive experience in implementing large projects and a global service network.
