Glass Open Book

CelSian Glass Experts

We strive to be the best partner for optimization of glass production worldwide

Description:	CelSian is an independent company focusing on improving process efficiency at glass manufacturers worldwide. Our proprietary software models are used by our customers to optimize glass melting processes. Minimizing costs for end users and environment. Our furnace support team offers solutions for multiple challenges faced by glass furnace operations: energy and CO2 reduction, emission reduction and increasing furnace lifetime. CelSian also assists with raw material selection and glass quality. CelSian Academy trains glass professionals around the world with open enrollment courses as well as company dedicated education.
