

Glass Open Book

Hotwork International

We Love it Hot

Description: Since 1962 Hotwork has provided Heat Up and other services to the glass industry.

Currently operating through a group of 9 companies and representations in over 65 countries, Hotwork International serves all major glass producers globally.

Our team of about 300 specialists servicing:

- Furnace Glass Drains (with Recycling)
- Furnace Cool Downs (with Contraction Control)
- Furnace Heat Ups (with Expansion Control)
- Cullet Fill in (Dust free)
- Thermal Regenerator Cleaning
- Hot Drilling
- Regenerator Repair without Production loss

Hotwork International is also supplying highly efficient and low emission combustion and electric melting technology. Our product ranges from:

- Air-Fuel Burner (Gas and Oil) for Underport and Sideport
- Oxy-Fuel Burner
- Combustion Control Skids
- Pre-Heating Technology for Oxygen and Natural Gas
- Electric Boosting (full range)
- Bubbling
