Glass Open Book

Forglass Sp. z o.o.

Description:

Forglass is a technology company, specialising in the design and construction of glass furnaces and batch plants for producers of all types of glass, including packaging, tableware, sodium silicate and fibreglass.

The company’s business activities involve designing, computer modelling and testing of glass furnaces that answer the demands of glass producers, not only today, but decades into the future. Forglass also designs innovative mechanical systems and automation for batch plants, including their auxiliary equipment. Additionally, the company provides servicing and repairs of furnaces and batch plants.

Forglass employs teams of experts that include master engineers with decades of experience and young engineers with the most modern approach. Together, they move the glass industry forward by providing greater efficiency of glass melting, reducing its impact on the environment and allowing more flexibility in production.
