TEKNİK ELMAS

Innovative Solutions for Glass Processing Industry

Description: TEKNİK ELMAS was founded in 2004 by people with 30 years of experience in the glass processing industry. We are manufacturer of abrasives and diamond tools for glass processing

TEKNİK ELMAS continues to operate successfully with its nearly 50 years of experience in the sector. Furthermore, it has become a company that emphasizes efficiency and quality in service production within the framework of high quality service standards and free market economy rules, which are increasing in parallel with the rapidly developing technology in the world. With our young, dynamic and strong research and development activity structure, we have increased our product range in a short time and has become the most prestigious brand of the sector. Our company continues its activities in an area of 2700 m2 in Istanbul Esenyurt Industrial Zone, in Istanbul

Our greatest motivation is to carry this success further and to ensure long-term customer satisfaction with the understanding of product quality and 24/7 after-sales service.

The trademark of Teknik Elmas is registered by Turkish Patent Institute. Teknik Elmas brings the knowledge and experience of glass processing to the manufacturing of glass processing machines and offers competitive, reliable and innovative solutions to the glass processing sector under the name of TESİR MAKİNE in year of 2014
