Glass Open Book

GCA

Forming glass with quality for your convenience.

Description:

GCA, whose foundation was laid in 2015, carries forward the know-how and experience of Gürok Group gained from glass tableware production for more than 25 years, with an innovative approach in the glass packaging sector. GCA is rapidly advancing to become one of the most preferred players in the glass packaging industry in the international arena, achieving significant success not only in our country but also worldwide. It exports to more than 40 countries, mainly to the Middle Eastern, European and African countries.

GCA successfully carries out projects that will carry the glass packaging industry in our country forward with its effective and sustainable efforts in R&D. Apart from performing high quality and safe production, it is committed to always prioritize respect for the environment and people, and to add value to its customers and the local economy by considering its customers as "Business Partners".

GCA, which was awarded national and global design awards by differentiating itself in the industry, assumes a global role in the sector with its membership and contributions to the European Glass Packaging Manufacturers Federation (FEVE), which works for the development of the glass packaging industry globally. Working in accordance with ISO 9001 Quality Management System and BRC / IoP Product Safety Management Systems in all processes from design to sales and marketing activities, GCA is one of the most distinguished players of the glass packaging industry in Turkey. GCA cares deeply about environmentally friendly production, approaches recycling with great sensitivity, generates various projects in order to help protect nature and supports others carried out on an international scale. GCA is also a member of ASD, Çevko and Suder.

At GCA production facilities, every stages from production processes to quality control and packaging processes are carried out with the latest technology and full automation systems. Visit www.gca.com for more information.
