Evalam

EVA interlayers made in Spain, made in Europe

Description:

Evalam is part of the Pujol Group of companies, a global leader specializing in the development of laminated glass using EVA and other interlayers. Located in As Pontes in the Spanish region of Galicia, Evalam's modern facilities boast a total of 15,000 m2 dedicated to the development, formulation, and extrusion of EVA.

Our Mission
To continue developing an unlimited array of plastic encapsulation products for the architectural, automotive, and photovoltaic sectors.

Our Vision
Constant innovation, improvement, and constant optimization

Our Values
Passion, responsibility, commitment and the capacity to adapt to a changing world and transformation are our main hallmarks.

Our Commitments

To our customers
Meeting their real needs is a priority. Our role is that of an accessible, proactive, and reliable partner; we are known for working closely with our customers, fully aligning ourselves with their strategy in order to offer them sustained support in the long term.

To our vendors
Our policy is to establish a direct, personal and stable relationship over time with all of our vendors. This relationship is based on the principle of ongoing collaboration between companies, transparency, veracity, and reliability of the information provided.

To our staff
We believe that it is of paramount importance to ensure that the people who work for Evalam are motivated. We implement the necessary policies to retain talent and strengthen relationships between our workers.

To the environment
We control the environmental impact of our activity by identifying, classifying, and treating the different types of waste we generate, and always in strict compliance with the rigorous European standards granted to us by REACH and ROHS.
