Glass Open Book

futronic GmbH

Description:

In the course of more than four decades, futronic has gained a reputation for innovative and reliable controls and drives for container glass machines and tableware production. Over a thousand of our systems are currently in action around the globe. Many of them have been performing impeccably for twenty years or more now, living up to even the highest client expectations day by day. Our specialists can draw on extensive control engineering expertise, a profound understanding of the production processes in the glass industry and considerable practical experience. We know our stuff!

We are therefore ideally placed to develop perfect solutions and design and install efficient systems offering excellent value for money. We don’t need to tell you that we are always on the ball and that we take an active interest in future technologies. And with more than eigthy highly qualified staff on our payroll, we have the necessary capacity to form effective partnerships.

As a futronic user, you too can reap the benefits and stay that decisive step ahead in the long term. After all, the future success of your manufacturing operations will be largely determined by your choice of automation system. futronic technologies are a sound investment in the future – and a decision you won’t regret.
