Glass Open Book

Grenzebach Maschinenbau GmbH

Let us be your guide through the world of glass

Description:

Grenzebach supplies plants for the production and further processing of industrial flat glass and has a wealth of experience with over 300 plants installed. Our industry experience is also rooted in the know-how of CNUD EFCO and GFT, which became part of Grenzebach Group in 2019. Thus, Grenzebach covers a large part of a glass production line: from tin bath to annealing lehr to cold end, from coating to transport the final product to the warehouse. Grenzebach regards itself as a reliable partner that accompanies its customers throughout the entire product lifecycle – customers benefit many times over from the comprehensive expertise in the hot and cold areas.

Follow the company

About Grenzebach
Grenzebach is a leading automatization solution provider for the global glass, building material and intralogistics market. In addition, the company develops new application areas, such as various recycling processes, friction stir welding, the automatization of industrial additive manufacturing or digital networking. Grenzebach ranks among the international technology leaders in its markets. The global manufacturing footprint with production sites in Germany, Romania, the US and China, as well as additional worldwide locations ensure customer support on-site. More than 3,000 systems installed in more than 55 countries stand for quality and reliability. Since the company opened its doors over 60 years ago, it has been owned by the founding family. With an export ratio of more than 90 percent, Grenzebach is a global player.
