

# Glass Open Book

## Filtraglass

**Description:** At Filtraglass we manufacture water filtration systems for all types of glass industries, thus covering a wide sector including the optical and automotive industries and the transformation of flat glass in general.

The function of our machines is to filter and extract the particles of glass that are found in the water used in glass treatment processes, thus obtaining clean, reusable water on one hand and dry, recyclable solid waste on the other.

**Social Media:** @filtraglass
