Hebei Grande Precision Machinery Co., Ltd

Investment Castings for glass mould industry~guide ring, baffle, baffle insert, thimble, plunger, top plates.....

Description:	Hebei Grande Precision Machinery Co., Ltd. is a manufacturer of glass mould components for the glass container industry. Our product range includes guide rings, baffles, baffle inserts, top plates, plungers, blanks, thimbles, and other wear parts used in IS glass forming systems. We mainly work with HR40 nickel-based high-temperature alloy, produced through investment casting, ensuring stable quality, consistent performance and cost efficiency for high-temperature applications. With strong process control and short, reliable lead times, we support glass mould makers and glass container producers worldwide in mould maintenance, replacement and repeat production programs.
Location:	China
Sectors:	Glass container
Activities:	Equipment / Machinery supplier
