Follow the company

Description:	Founded in 1999, Anyang Lishi Industrial is a comprehensive enterprise integrating scientific research, processing and production, import and export, etc. Our business scope involves sodium feldspar, ferroalloy, refractory materials and other industries. Our factory covers an area of 45,000 square meters, and we have passed ISO9001:2000 quality management system certification. We own our private laboratory which contains modern testing equipment and sophisticated testing methods. On the other hand, Our quarry is close to international ports such as Tianjin Port and Qingdao Port, which brings a convenient transportation. Anyang Lishi Industrial controls the entire production process from mining to manufacturing so that we ensure a continuous and reliable supply of high-quality sodium feldspar.
