GREAT WINNER CERAMICS

Follow the company

Description:	Great winner ceramic is founded in 1998,which has more than 20 years history. Our factory locates in Zichuan industry park, Zibo city, Shandong province which is the biggest refractory material production base of China. We mainly focus on producing the refractory material products which can be used in the glass furnace and steel industry. Nowadays our factory has two production lines, 4 furnaces with the annual capacity of 2,000 tons for glass furnace products and 12,000 tons for the steel factory. It covers an area of 100, 000 square meters. Through more than twenty years development, now we have four professional workers who can make the professional drawings as the customers' demand and 5 technology workers who focus on the customers' service and can give the customers the most professional advice. Supplying more and more better quality products is what we are always trying to do now. Profession and focusing on the glass furnace and steel industry is our advantage.
