Lenses Prisms Windows Mirrors Filters Infrared Optics Coatings crystal

Description: He Rui Optics Co., Ltd. is located in Changchun City, Jilin Province, which is known as "China Optical Valley".

He Rui Optics customizes various optical components include spherical lens, optical prism, optical window, optical filter, cylindrical lens, aspherical lens, optical mirror, laser mirror, optical filters and related products of high precision processing.

Widely used in military, scientific research, health, biological engineering, astronomical observation and used in laser, electronics, semiconductors, telecommunications, thermal imaging and other aspects.

We have been in line with the "customer first, quality first, service first" purpose, strict quality, control processing and delivery time, optimize service. To meet the needs of customers, to achieve customer satisfaction, win the trust of customers.
