Mahalaxmi Engineering Works

Precision in Every Cut, Reliability in Every Blade – Delivering Quality Shear Blades for IS Machines Worldwide.

Follow the company

Description:	Mahalaxmi Engineering Works is a trusted manufacturer of glass-cutting shear blades for I.S. (Individual Section) Machines used in the glass container industry. As a family business, we blend decades of hands-on experience with modern manufacturing practices to deliver consistent quality and long-term value to our clients. We proudly manufacture over 300,000 shear blades annually, supplying to leading glass plants across India and exporting to global markets. Our blades are known for their precision, durability, and smooth cutting performance, thanks to high-grade raw materials, advanced heat treatment, and strict quality control. At Mahalaxmi Engineering Works, we understand the critical role shear blades play in the production process. That's why we offer both standard and custom-designed blades, tailored to meet the specific needs of different I.S. Machine configurations. Each blade reflects our commitment to performance, reliability, and customer satisfaction. Backed by a legacy of excellence and driven by a new generation of leadership, we continue to grow while staying true to our roots—delivering dependable products with personal service.
