Glass Open Book

K-Tec BV

Dedicated to reliable hot-end coating solutions for the global glass industry.

Description: K-Tec B.V. is a specialist manufacturer of hot-end coating equipment for the hollow glass industry. Building on more than four decades of engineering expertise, we design and produce coating hood systems, control solutions, and spare parts used by glass manufacturers worldwide.

Our equipment is developed with a strong focus on reliability, serviceability, and consistent coating performance. Through continuous product development and close cooperation with our customers, we provide practical solutions that support stable production and long equipment lifetimes.
