## Assistant Manager/ Engineer Furnace - Glass department

**£10-50k per year**

Field of activity: Production  
Glass industry sector: Glass container  
Type of employment: Full-time

I am a chemical and process Engineer and have two years experience of production as senior executive at PGP glass ceylon plc and worked with BDF & Bottero IS machines for glass bottles forming via PB & BB process. There after currently i am working as Assistant manager Furnace at PGP Glass ceylon PLC for three years. I am fully aware of furnace operation, color fore hearth operation (there are two color FH), furnace maintenance such as hot repairs , wall patching etc. Further i have done several R&D project black sand processing, color cullet usage for batching, alternative fritz usage for color development, Energy saving project etc. Further i have sound knowledge about glass batching process and RM inspection etc.
